EMERGENCY LUMINAIRES
ON TRACK

www.olympia-electronics.com

Safety takes on a new dimension with design that blends technology and aesthetics.

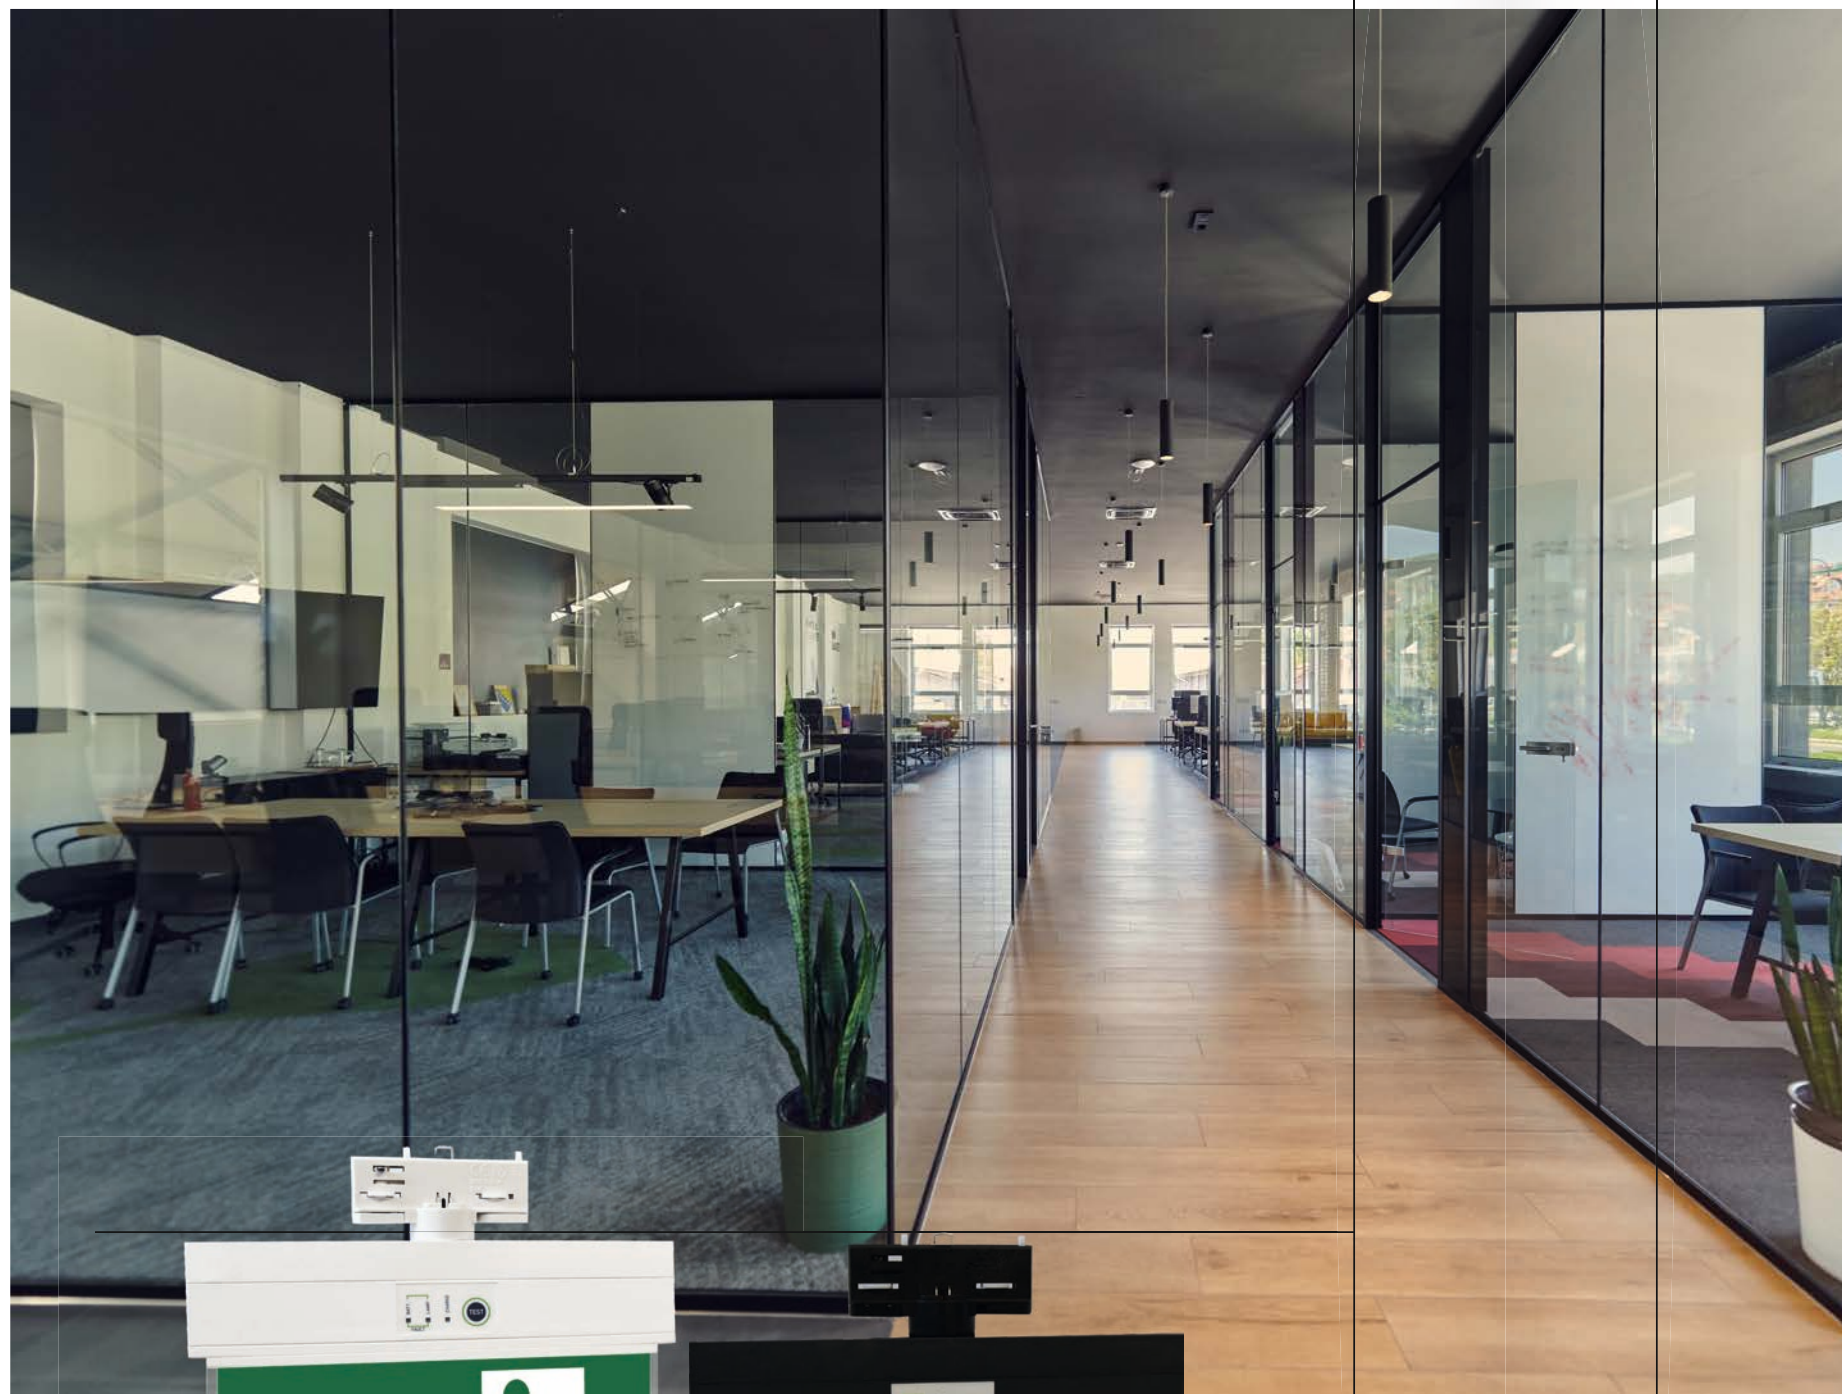

Olympia Electronics introduces its new range of Linear and Spot emergency and signage lighting fixtures, designed for track-mounted installation to offer maximum flexibility and harmony in any space.

With modern design and high-quality construction, these safety lighting solutions are the ideal choice for any professional or architectural application where safety, functionality, and aesthetic appeal are priorities.

Discover a new era of emergency luminaires — where technology meets design, and Olympia Electronics leads the way with solutions that inspire confidence and enhance every environment.

Design & safety
in perfect harmony

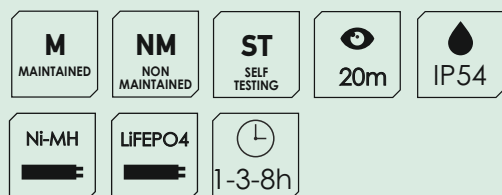

KLD-22

M MAINTAINED	NM NON MAINTAINED	ST SELF TESTING	22m	IP54
NI-MH 	LiFePO4 	1-3-8h		

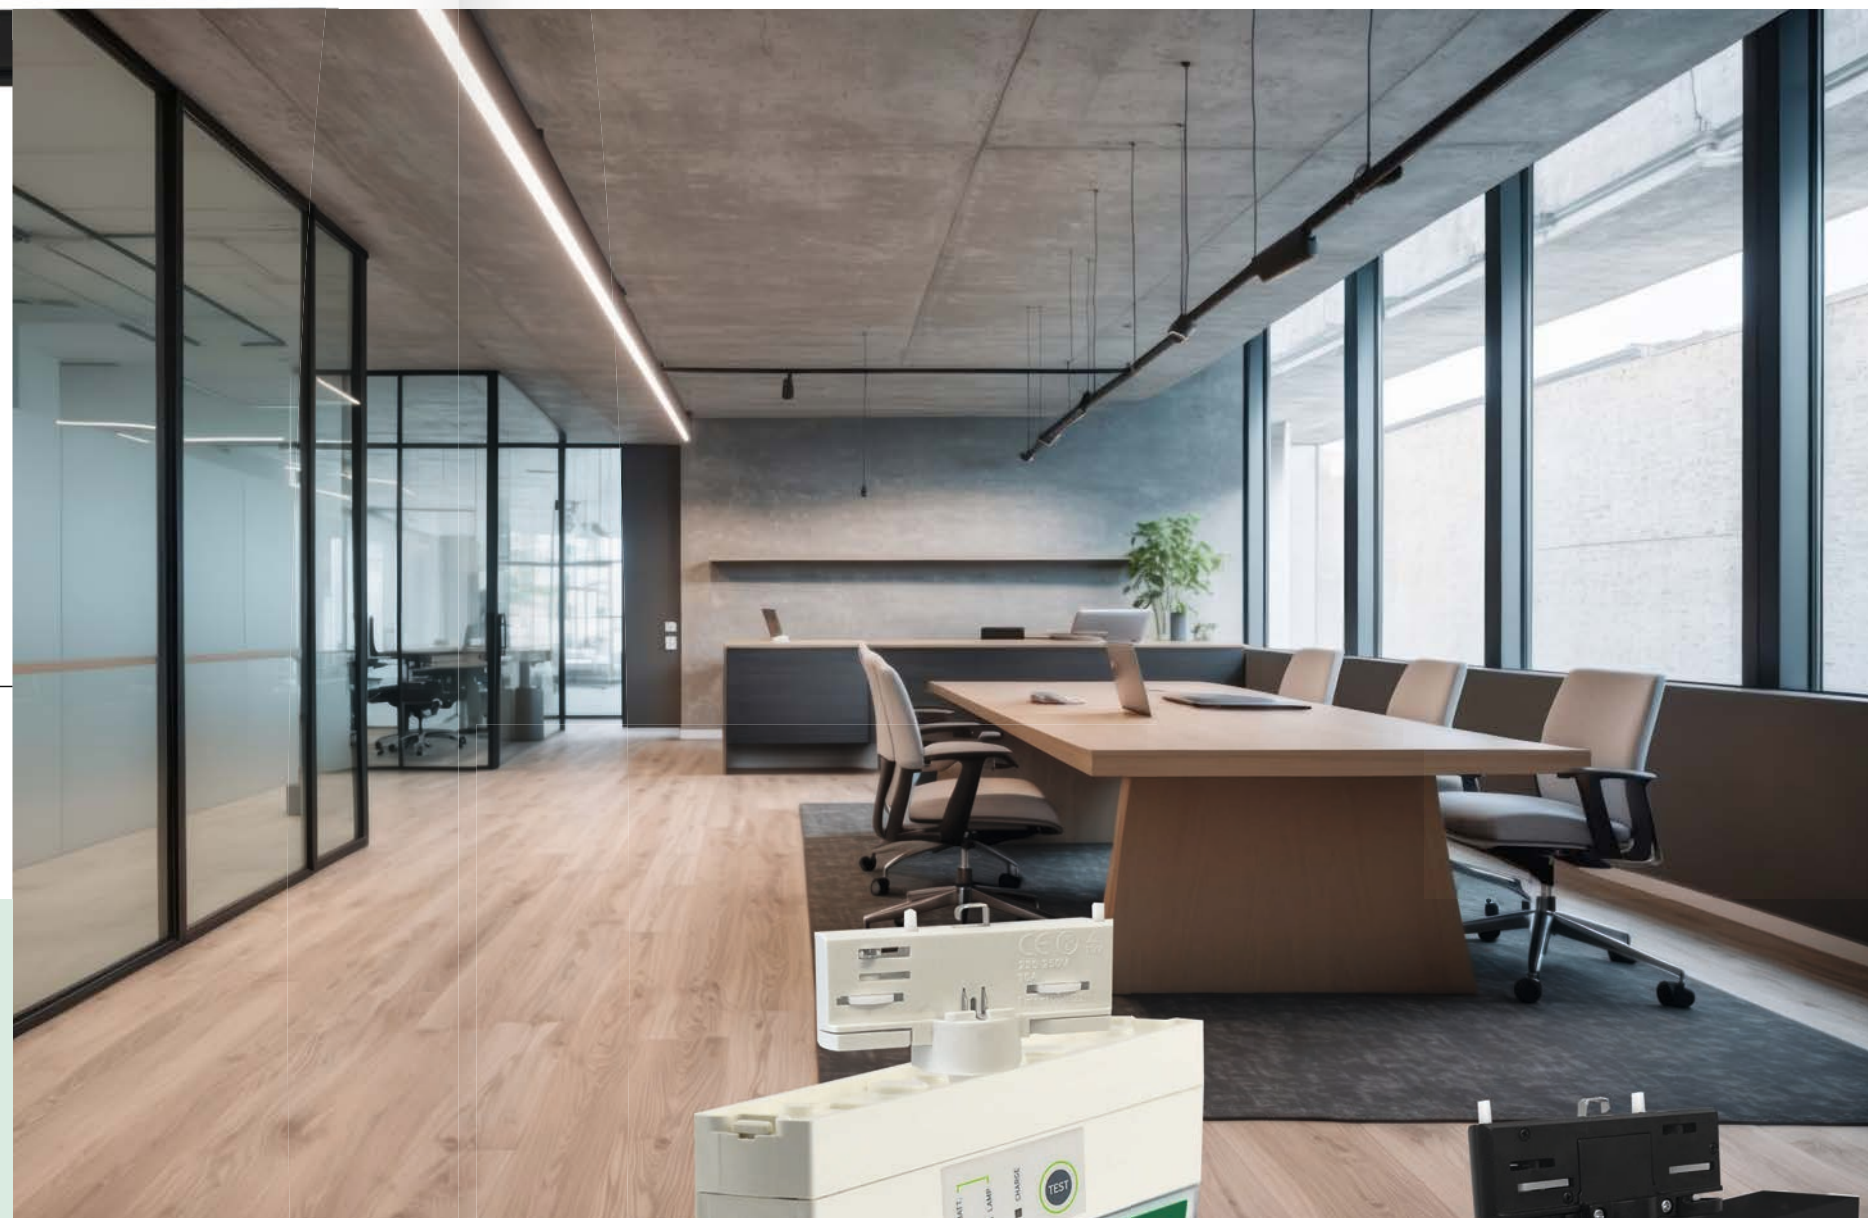

The KLD-22 delivers reliable performance and easy installation while maintaining a discreet aesthetic. With its efficient design and robust construction, it is an ideal solution for modern buildings that require safety with style and the flexibility of track-mounted installation.

KLR-20

The KLR-20 is a versatile emergency signage luminaire that combines LED technology, a minimal design, and the option for track-mounted installation. Its compact form makes it ideal for smaller spaces or applications where discreet yet effective guidance is required.

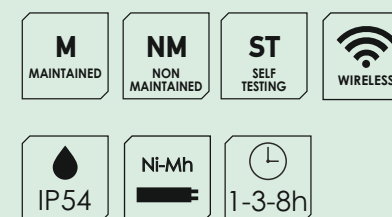

KLD-30

M MAINTAINED	NM NON MAINTAINED	ST SELF TESTING	 WIRELESS
 30m	 IP54	NI-MH 	LIFEPO4  1-3-8h

The KLD-30 combines powerful 75 lm brightness with clean, uniform emergency exit signage. With a 3-hour autonomy and an elegant design suitable for track-mounted installation, it is the ideal solution for large spaces and professional environments with demanding safety requirements

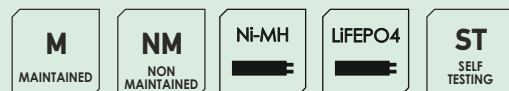

KLIN-20

The KLIN series combines modern design with practicality, offering a linear style and a flexible mounting base for easy installation on walls, ceilings, or tracks. The reliable performance — available in both maintained and non-maintained operation — and the option to select autonomy levels provide adaptability to every requirement. With its robust construction, efficiency, and discreet aesthetic, the KLIN series is an ideal emergency lighting solution for contemporary buildings that value safety, style, and ease of installation.

ZLD-PRO

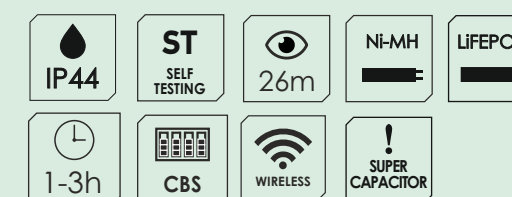

The ZLD PRO Series delivers reliable performance and contemporary aesthetics with a sleek aluminum profile and uniform illumination from low-power LEDs. Its robust construction and easy installation on walls, ceilings, or tracks make it an excellent choice for buildings that demand safety with style and high efficiency. The luminaires are available in single- or double-sided versions with easy pictogram changeover to suit varying requirements.

PLD-25

The PLD-25 Series combines minimalist design with easy connection and installation, offering a viewing distance of 26 meters. Designed with reliable performance and available self-testing emergency lighting options, the series includes versions with supercapacitors for enhanced durability and operation in extreme temperatures. The track-mountable luminaires deliver safety, efficiency, and resilience in any condition-making them ideal for demanding environments where functionality and adaptability are essential.

LINEAR30

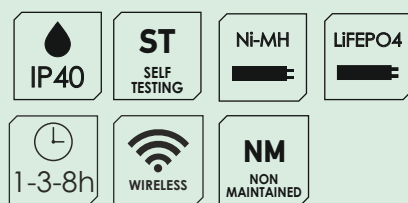

The Linear Series delivers dependable illumination and elegant design, featuring up to 2000lm brightness and a high-quality black aluminum body. Its versatile mounting options - on walls, ceilings, or tracks - and available configurations with built-in battery or central power connection make it ideal for any space that demands safety with style, flexibility, and high performance.

GR-795

The Chloe Spot Light Series delivers dependable, discreet illumination ideal for large spaces with high ceilings. Available with lenses suited for both open areas and escape routes, the series offers flexible mounting options - including surface, recessed, or track installation - to fit a wide range of architectural needs. Designed with premium build quality and elegant styling, it's the perfect solution for offices, hotels, shopping centres, and airports where subtle yet effective emergency lighting is essential

for a safer world!

Environmental Friendly Company
